Room 1061
Rockville, MD 20852

Reference: Docket #98N-1038 "Irradiation in the Production,
Processing, and Handling of Food."

Despite corporate pressure, the people will be affected by the decision to eliminate information that is necessary to make informed choices when deciding what to buy and serve their families.

I am among the public that believes irradiation is harmful to humans and I would like to continue to have the meaningful information on the labels of the ingredients I purchase. I ask that labelling requirements not expire and that the word irradiation be used.

Sincerely,

Rosanne Kunderovich
